### **ABOUT SACRAMENTO CHILDREN’S HOME**

Since 1867, the Sacramento Children’s Home has been committed to helping children by providing high-quality care to the Sacramento region’s most vulnerable children and families. Our 150+ year history has positioned our agency at the forefront of caring for at-risk youth and helping to build strong families throughout our community.

From providing crisis support for families with infants and toddlers to providing short-term residential care to foster youth who have suffered trauma, SCH services focus on child abuse prevention, intervention, and mental health treatment for our area’s most at-risk children and families. Our programs promote child safety, positive parenting, education, and mental health, and improve the healthy functioning of families.
